ABOUT ME

With over 5 years of professional experience as a full-stack developer, I specialize in building robust, scalable applications using modern programming languages and frameworks. I thrive on solving complex problems, turning ideas into efficient solutions, and collaborating with cross-functional teams to deliver high-quality results. Driven, adaptable, and always eager to learn new technologies and improve my craft.

TECHNICAL SKILLS

Python	Git, Docker	APIs Integration
Django, Flask, FastAPI	MySQL, PostgreSQL, MongoDB	Data Analytics
React, Node.js	CI/CD & Automation	Server Management
AWS, Google Cloud		

PROFESSIONAL EXPERIENCE

Ideepeners Pvt. Ltd.   **Aug 2021 - Sep 2025**

- Developed and maintained end-to-end web applications using Python, Django, FastAPI, and React, ensuring high performance, scalability, and clean architecture.
- Built analytics modules for Minstein (Shopify SaaS) by integrating large datasets, improving reporting accuracy, and creating user-friendly dashboards.
- Engineered product features including Instagram feed integration, real-time trading operations, and API-driven workflows.
- Collaborated with product, design, and QA teams to translate requirements into reliable technical solutions.
- Improved backend logic, database efficiency, and API response times through systematic optimization.

Concentrix Daksh Services Pvt. Ltd.   **Feb 2020 - July 2021**

- Automated recurring workflows by building and deploying custom scripts, including daily data-scraping pipelines to ensure consistent and accurate data collection.
- Optimized backend processes and system performance by refining code, implementing monitoring, and reducing bottlenecks.
- Moderated and proofread content to ensure quality and accuracy across deliverables.

PROJECTS

Minstein (Analytics App)

- Built core analytics modules delivering real-time business insights.
- Developed data-processing workflows and interactive dashboards.
- Worked with design teams to present complex analytical data in intuitive UI components.
- **Tech Stack**: HTML, CSS, JavaScript, Django, MySQL, MongoDB

Newzy

- Built backend services for personalized feeds with fast API performance.
- Implemented multi-source content aggregation pipelines.
- Ensured timely delivery of data with reliable content-processing workflows.
- Play Store Listing: https://play.google.com/store/apps/details?id=universalcaptial.newzy
- **Tech Stack**: Python, FastAPI, PostgreSQL

Propdesk (Algorithmic Trading)

- Built real-time backend services for algorithmic trading, data streaming, and fast execution.
- Developed interactive UI components for monitoring positions, risks, and market signals.
- Implemented risk-management logic, data pipelines, and system optimizations to improve accuracy and reduce latency.
- **Tech Stack**: Python, FastAPI, React, MongoDB

To learn more about the projects I've worked on, please feel free to visit my website.

EDUCATION

(2013) CBSE Board
12th Standard (GPA : **7.2**)

(2016 - 2020) IGNOU University
Bachelor's In Computer Applications (BCA) (GPA : **7.0**)

(2020 - 2022) IGNOU University
Master's In Computer Applications (MCA) (GPA : **6.8**)

QUIRKS

- Strong team collaborator with a commitment to working both smart and hard.
- Clear and effective communicator.
- Critical thinker with a creative, solution-oriented mindset.
- **Languages:** English, Hindi, Punjabi.
